Dear Dr. L.:

[REDACTED] came back to see me for the first time in about a year and a half.

She continues to do well and proudly told me she has successfully lost thirty pounds, which has gotten rid of her heartburn and helped her blood pressure.

She is doing extremely well from my point of view. Last year I asked you for annual blood work results but they were never sent so today I have sent her for what I want and I will send you copies of the results. I understand that Dr. Poon is also done some blood work and perhaps he will send me those results. She will be phoning me for results. All being well I don't need to see her for a year. She will be due for colonoscopy in 2007.

Best regards,

Yours sincerely,

F. MD, FRCPC
Consultant Gastroenterologist
